Subject: RE: Montana Superfund Site Summary Information

Additional info I just sent to Kell:

One more point about the MT SF sites that was just brought to my attention that definitely seems relevant. 8 of the 20 NPL sites in MT are "mega sites", meaning the site cleanup cost is estimated to be >\$50 Million. These 8 sites are: Anaconda Smelter, Barker Hughesville, Basin Mining, Carpenter Snow Creek, East Helena, Libby Asbestos, Milltown Reservoir and Silver Bow Creek/Butte. For perspective, there are 168 mega sites nationally.

Betsy

Subject: RE: Montana Superfund Site Summary Information

No – that didn't come up but it is a good point. According to a chart I just found, 8 of the MT sites are megasites....I will pass that along to Kell. Thanks

Thanks, Betsy.

Will Kell be discussing the prevalence of "megasites" on our Montana site list?
